NEXT MONTHLY GENERAL MEETING:

Postponed

A NOTE FROM THE PRESIDENT:

“Hi SHMRC Members, I hope this newsletter finds everyone fit, well and keeping safe.

As most would have heard, we have been forced to cancel our June long weekend race meeting. We’re quietly hoping we might have still been able to run it, but it was not to be.

We have been working hard behind the scenes to get next years calendar finalised. This has been a tricky job negotiating with all the various associations to make it work, but it is looking full and exciting. We hope to be able to release it in the coming weeks.

The season will start in November with the Re-Running of the Super Rod State Title, originally scheduled for the June Long Weekend. We are excited that the VSC and Super Rod association have given us the opportunity to still host this event, as we are all looking forward to it.

That being said, with the government restrictions still in place, the upcoming season remains a little unknown. We can only hope that the restrictions will be eased in the coming months and we can go back to racing at the start of the season as planned.

We will keep our members updated on plans for a Presentation Night/End of Season celebration and AGM as we figure out what we can and can’t do. But in the meantime, look after yourselves, and I hope to see you all at the track again soon.
